## Trillennium Masking Tape

### Characteristics

A quality, smooth crepe pressure-sensitive masking tape with good quick stick and holding properties. This product is designed for paint masking requiring clean and easy removal from a variety of surfaces. Can be exposed to oven temperatures up to 121°C (250°F) for 30 minutes. Waterproof and IR resistant. Excellent for masking rubber trim and plastic parts.

### Application

Automotive, truck, bus and marine paint masking. Recommend warm removal, although can be removed cold.

### Technical Data

Backing	Coarse crepe paper
Colour	Dark blue
Adhesive	Rubber / Resin
Adhesion to steel	26 (7.1 N/25mm)
Quick stick to kraft	5 (1.4 N/25mm)
Quick Stick to steel	12 (3.3 N/25mm)
Tensile strength	23 (101 N/25mm)
Elongation	7.5 % at break
Thickness	6.7 mils (0.17mm)

### Storage and Transportation

Store in a clean, dry place. Temperature of 21°C and 40% to 50% relative humidity are recommended. 12 months shelf life, when stored under suggested storage conditions.
